

Shafiq Rehman

Power BI Developer | Data Analyst

Pakistan | +92 340 096 2530 | optidataanalytics@gmail.com

Portfolio: <https://bi-knowledgeanalytics.github.io/bi-portfolio/>

PROFESSIONAL SUMMARY

Detail-oriented Power BI Developer with an Engineering background, specializing in turning raw, messy data into clear, actionable dashboards. Experienced in end-to-end BI delivery — data cleaning, data modeling, DAX, Power Query, and deployment to Power BI Service. Focused on report performance, executive-friendly design, and translating business questions into measurable KPIs.

SKILLS

- BI & Reporting: Power BI, Data Visualization, Dashboard Design, Power BI Service (publish & manage)
- Data Preparation: Power Query (M), Data Cleaning, Data Transformation, ETL fundamentals
- Data Modeling: Star Schema, Relationships, DAX (measures, calculated columns, time intelligence), Row-Level Security
- Other: Microsoft Excel (advanced), Requirement Gathering, Stakeholder Communication, Documentation

EXPERIENCE

Power BI Developer / Data Analyst — Freelance & Project Work

- Built end-to-end Power BI dashboards from raw Excel/CSV data — cleaning, modeling, and visualizing to answer business questions.
- Designed star-schema data models with optimized DAX measures for fast, accurate reporting.
- Created reusable dashboards with clear KPIs, drill-through navigation, and role-based access.
- Improved data quality by automating cleaning and transformation steps with Power Query.
- Delivered executive-friendly reports that turned unstructured data into decision-ready insights.

Selected Project — OptiData Analytics Portfolio:

Designed and deployed a live personal portfolio showcasing Power BI dashboards and reporting work, demonstrating data modeling, DAX, and clean visual design. Available at: <https://bi-knowledgeanalytics.github.io/bi-portfolio/>

EDUCATION

Bachelor's Degree in Engineering
